The Scientific American Supplement Index for Vol. 77

JANUARY—JUNE, 1914

THE * INDICATES THAT THE ARTICLE IS ILLUSTRATED

A

Accidents, causes of with airships 255
Action at a distance in transport 39
Adaptation of kerosene to gasoline engines *22
Additions to our Navy, this year's *340
Aeronautical salon, Paris *17
Aeroplane, development of the I, *361; II, *382
Aeroplanes, catastrophic instability in *98
Aero show in London, annual I, *264; II, *276
Agricultural motors in West Indies 139
Aircraft, fuel for 83
Aircraft, joints in materials for 263
Airship rotating shed *77
Airships, causes of accidents with 255
Alloy steel for locomotive parts 131
Alpha and Beta particles, counting method *201
Altitude, relations of muscular exercise to 139
Aluminium as flux 48
Amateurs, stellar photography for 96
Amber fisheries and amber mines*337
American and European types of electric cold saws, some..... *380
Americans, racial origin of successful 351
Analysis, quantitative colorimetric. I, *178; II, *206; III, *238
Ancient American history, monuments, etc. *321
Animal heat, production of..... 55
Animals (aquatic), relation to surrounding water 342
Animals, domestication of...... *21
Animals, equilibrium and equilibrium organs in lower..... *245
Animals, the rôle of fluorine in 227
Annual aero show in London I, *264; II, *276
Antarctic, optical marvels in.. *129
Antarctic problems, Andes and Horst 214
Antique objects, deterioration and preservation of exhumed. *136
Ants, the strength of........ 279
Apparatus, fine gas measuring. *119
Application of carbon dioxide gas to the soil, the 399
Aquarium, school of porpoises at the New York *301
Aquatic animals and surrounding water 342
Archæological expedition, the Pelliot *148
Arch, Crooked River *92
Arithmetical curiosity, an..... 391
Art, Buddhist in Eastern Turkestan *148
Artificially induced pearl production *205
Ascent of lava *45
Asphalt group of fossil skeletons *212
Athletic sports in relation to health 247
Athletics, a "danger-scale" for.. 284
Atmosphere, facts and problems regarding *210
Aurora borealis and neon tubes 219
Auroras, light pillars, coronas, etc., in the Antarctic....... *129
Austrian mining and iron works, important *353
Automatic stabilizers 203
Automobile club (France), experimental laboratory of..... *113
Automobile materials, how tested *72
Automobile weight reduction... 223
Automobiles, machine tools used*257
Automobiles, number in United States 131
Autumn leaves 45
Aviation flights of Pégoud..... *56

B

Baffin Land 80
Baking bread *44
Balboa, monument to 76
Bamboo, commercial uses of.... *116
Baseball, curved flight of a.... *146
Bathtubs and sinks, to clean.. 320
Bearing metal manufacturing and use 242
Bearings, roller and ball 39
Bears (polar), in Arctic exploration 99
Berlin, new Havel bridge...... *225
Biochemistry, its history and significance 16
Biological science and the pearling industry *1
Biplane, seven loops in 119
Biplane, Sikorsky's stupendous. 91
Bites of venomous snakes, and treatment *133
Blast furnace, burden of modern 11
Blast furnace obstructions, removal of 327
Blasting gelatine, notes and theories 334
Blaugas, manufacture and uses of 202
Blood pigment and chlorophyl. *269
Boat propellers, erosion of canal bottoms by 295
Bodies fall in deep vertical shafts, how 399
Bodies, the problem of three.... 302
Body and mind, heredity in reference to 2
Boiler, tank and plate shops, progress in *65
Boilers, laying up heating 240
Boilers, oil fuel in marine..... 69
Boilers, powdered coal under.. 272
Borax mineral, origin of 333
Boron, commercial uses of 275
Bread baking *44
Bread, the loaf of 269
Breakdowns of stationary engines *364
Breakwaters and piers, wave-action on *324
Breech-loader, evolution of.... *261
Bridge building problem, Crooked River *92
Bridge, the new Havel, Berlin.. *225
British aeroplane building 375
Buddhist art in eastern Turkestan *148
Burns from X-rays 144
Bursting of flywheels *43
By-products from non-coking coals 223

C

Calculating heat losses from buildings 407
Canal bottoms, erosion of by propellers 295
Canal, deepening of Suez 142
Canal, "Soo," world's busiest locks *40
Carbon, boiling 115
Carbon dioxide recorder, how it works *281
Cardiography, electro *300
Car ferry in freight and passenger service *88
Cars, over-crowded street 5
Cartridge cases, drawing...... *316
Cases, drawing cartridge....... *316
Catalysis in organic chemistry.. 402
Celestial bodies under attraction 302
Cell, the photo-electric *58
Celluloid, invention of 202
Chemical fire extinguishers 139
Chemicals, transportation of by water 343
Chemist (research) and textile industry *293
Chickens, hatching by electricity *49
China, western industries in... 219
Chlorophyl and blood pigment. *269
Circuit-breaker, bell alarm *384
Clock, wound by swing of your door 217
Clouds, water, at low temperatures 73
Coal (powdered), under boilers. 272
Coals, by-products from non-coking 223
Coke ovens, wastefulness of... 246
Cold storage, insulation for.... *359
Colorimetric quantitative analysis. I, *178; II, *206; III, *238
Coloring wood of growing trees 105
Comparative strength of naval powers 233
Comparison of rivers...... *241, 284
Compression tests on woods ... *408
Concrete railway ties, elastic... *21
Concrete use in road construction *200
Constant π, mnemonic rule for, 48, 243
Cork, production of 137
Correction, W. P. Davey's article 256
Cost of electricity at the source. *250
Cotton goods, permanent fireproofing of 106
Counting of Alpha and Beta particles, methods of *201
Cricket's call and temperature.. 315
Crooked River arch *92
Crystals, liquid 248
Cube of the water of the earth 67
Curbing the Mississippi *204
Cyanide (sodium), industrial synthesis of *134
"Cypress," oil-burning steam yacht *193

D

Darwinism one hundred years ago 3
Daylight saving, the light that fails *220
Decimals of a mile, table of feet reduced to 259
Decline of the American Navy. *262
Desolate island of the Antarctic, whaling *60
Deterioration and preservation of exhumed antique objects.. *136
Detonation of gun-cotton, effects of *252
Development of electrically-operated tools *289
Development of the aeroplane, I, *361; II, *382
Device (ticket) for French omnibuses *123
Diagnosing disease 1,500 years old 288
Diatomite, scientific and industrial uses of 109
Discoveries, recent, in physical science.. I, *258; II, *274; III, *298; IV, *310
Disease 1,500 years old, diagnosing 288
Disease dangers of Mexican invasion 335
Distance, action at a........ 39
Diver in winter, the *145
Domestication of animals *21
Door swing winding your clock. *217
Douglas fir and redwood, strength of *20
Draft installations, induced, European *236
Drawing cartridge cases *316
Dreadnought, the "Rio de Janeiro" *120
Ductile tungsten 217
Dust explosions 282

E

Earth's magnetism, moon's influence on 368
Eclipse of sun and electric waves 247
Economic and æsthetic aspect of electrochemistry 370
Economies in shop transportation *38
Economy in ocean transport ... 7
Efficiency and the new tariff... 122
Eggs by parcel post 403
Elastic concrete railway ties... *21
Electric circuits and apparatus, pressure rises in 42
Electric emissivity of matter... 266
Electric iron production on large scale 199
Electric light and eyesight.... 7
Electric measuring machine, Shaw's *141
Electric railways, Winter troubles on 53
Electrical engineering, effect on modern industry 314
Electrical engineering, trained men in 138
Electrical injury to street trees *36
Electrically operated boiler-room scale, an *405
Electrically operated tools, development *289
Electrician, amateur, directions for *4
Electrified chickens, hatching of *49
Electricity, cost of at its source*250
Electricity for country houses.. 287
Electricity, the origin of solar. 10
Electro-cardiography *300
Electromagnetic tripping devices *94
Emissivity (electric) of matter. 266
Energy sources of the future... 80
Engine, fallacies about gasoline 304
Engines, breakdowns of stationary *364
Engines, right and left hand... *74
Engineering, colossal waste, due to bad municipal 270
Engineering industry, sources of leakage in 218
Engineering, relation of mathematics to 319
Engineering, sanitary, trained men in 150
Equilibrium and equilibrium organs in lower animals *245
Erratum, on comparison of rivers 284
Erosion, a working model *291
Erosion of canal bottoms by boat propellers 295
European induced draft installations *236
European population, our 414
Evolution, Darwinism 100 years ago 3
Evolution of the breech-loader. *261
Exhibition, fifth international of aerial locomotion *17
Expedition, Shackleton's Antarctic, 1914 .... *81
Expenditures of one hundred and eighty-four American cities *388
Experimental evidence of molecular structure *299
Explosions, dust 282
Export field, South America as an 355
Extinguishers, chemical fire ... 139
Eyes, movies and the 288
Eyesight and electric light 7

F

Face and the skull, the *372
Facts and problems regarding our atmosphere *210
Families, size of, in France.... 71
Farms, mud-built 5
Fauna, protection of nature's.. 45
Feeble-minded, menace of the.. 251
Feet, table of, reduced to decimals of a mile 259
Ferry car, in passenger and freight service *88
Fiber, manufacture of vulcanized 304
Fifty-watt transformer, construction of *4
Fill, the Rainy Lake *216
Films, paint, protection of iron and steel by *85
Filtration of potable waters ... *395
Fire-damp whistle indicator ... 215
Fire engine, chemical, "mine type" *149
Fire extinguishers, chemical ... 139
Fire prevention, forest 336
Fireproofing, permanent, of cotton goods 106
Fischer (Emil) and organic synthesis 281
Fisheries and mines, amber *337
Fishes, life habits of *332
Flexible metallic tubing 59
Flies (house) and disease 322
Fluid motion, phenomena of... *146
Fluids with visible molecules... 406
Fluorine in animals, the rôle of. 227
Flux, aluminium as 48
Flywheels and pulleys, cast-iron 235
Flywheels, bursting of *43
Flywheels, large gas engine ... *338
Food in homes, ice in preserving *6
Food production and population 215
Ford Motor Company, wages adjustment *86
Forest fire prevention 336
Forging and falsification of postage stamps 23
Fossil reptiles, South American*312
Fossil skeletons, asphalt group. *212
Fraudulent playing cards *381
Fresh air in school-rooms *118
Frontier fixing 71
Fuel for aircraft 83
Fuel, future of oil 226
Furnace, burden of modern blast 11
Furnace (iron blast), and its fuels .... I, 110; II, 114
Furnace, zinc smelting in electric *66
Future, energy sources of the... 80
Future of oil fuel 226

G

Gas engine flywheels, large.... *338
Gas-measuring apparatus, fine.. *119
Gaseous mixtures, natural, rich in helium 9
Gases, expanding, and ascent of lava *45
Gases, rare 138
Gasoline engine, adaptation of kerosene to *22
Gasoline engine, fallacies about 304
Gasoline substitutes 63
Gear (reduction), and steam turbine *348
Gelatine, blasting, notes and theories 334
German army marksmanship deteriorating 93
German radiotelegraphic Pacific stations 147
Giant drilling machine for turbine work *389
Giraffes and how they are hunted 131
Gold fields, new, in Siberia 51
Goods, permanent fireproofing of cotton 106
Graphical construction of direct reading scale for Wheatstone bridge *320
Graphic representation of economic fluctuations, a........ *405
Great meteor of February 9th, 1913, the 410
Gun-cotton, effects of its detonation *252
Gyroscopic force in revolving-cylinder motors *50

H

Habits (life) of fishes *332
Hairs and hair-pigments *356
Harbor breakwaters and piers, wave-action on *324
Hardening and tempering steel. *8
Harvesting ice rapidly, how to 18
Hatching chickens by electricity *49
Hat-pin menace, the 259
Havel bridge (new), Berlin.... *225
Health, athletic sports in relation to 247
Heart, how made to register... *300
Heart, index of work of 283
Heating boilers, laying up..... 240
Helium, natural gaseous mixtures rich in 9
Heredity in relation to body and mind 2
Hertzian waves intensity varies with weather 208
High pressures and low temperatures, properties of water at, I, *280; II, *290
History, ancient American, temples, etc. *321
House-flies and disease 322
Houses (country), electricity for 287
Hulls, regulations for subdivision of 211
Human worth of rigorous thinking 30

I

Icebergs and rise of temperature *67
Ice, five kinds discovered, I, *280; II, *290
Ice, how to harvest rapidly..... 18
Ice in preserving food in homes *6
Illumination from large area light sources ..... I, *70; II, *82
Index of work of the heart.... 283
Induced draft installations, European *236
Industrial need of technically trained men 138, 150
Industrial synthesis of sodium cyanide *134
Industries, western in China... 219
Industry, effect of electrical engineering on modern 314
Influence of antivivisection on character, the .. I, *389; II, *412
Ingenious method for determining the difference of longitude 384
Instability (catastrophic) in aeroplanes *98
Insulation for cold storage ... *359
Interstellar space, is it empty 29
Introduction to the new statistics with special reference to the needs of biologists 411
Inventing machines to make inventions marketable *232
Invention (for young engineers) 128
Invention of celluloid 202
Invisible light, notes on 297
Iron and mining works, an Austrian *353
Iron and steel articles, rust-proofing 222
Iron and steel, protection of by paint films *85
Iron blast furnace and its fuels, I, 110; II, 114
Iron (electric), production on large scale 199
Iron ores (sintered) compared. 295

J

Joints in materials for airships. 263

K

Kapok mattress life-raft *213
Kerosene adaptation to gasoline engines *22
Kinematograph in research.... 371

L

Laboratory equipment of automobile factories *72
Laboratory, experimental, of Automobile Club of France *113
Labor classified on skill-wages basis *86
Lamp, quartz-tube mercury arc. 19
Lava, the ascent of *45
Lead poisoning in American industrial life 78
Leakage, sources of in engineering industry 218
Leaves, Autumn 45
Lettuce juice, opiates derived from 123
Legal time in various countries.*357
Life at low temperatures...... 137
Lifeboats, stability of ships' ... 339
Life, microbian 149
Life of power plants.... 130
Lift-raft of kapok mattress.....*213
Life, safety of at sea 211
Light (marble), effect on the eyes *326
Light, notes on invisible 297
Light, sources, illumination from large area ....I, *70; II, *82
Liquid crystals *248
Liquids, safety methods of storing and handling explosive..*108
Locks of the "Soo" Canal...... *40
Locomotive design, progress in *97
Locomotive parts, alloy steel for 131
Locomotives, pyrometer for superheater *237
Longevity of microbes 16

M

Machine, interest-computing .. 37
Machine tools and motor car industry *257
Machines invented to make inventions marketable *232
Machines, the world's....320
Magnetism (earth's), moon's influence on 368
Man as source of mechanical power *221
Manufacture and uses of blaugas 202
Manufacturing and use of bearing metals 242
Map of world, scale one millionth 138
Marble light, the, effect on eyes*326
Marconi wireless suit 234
Marksmanship deteriorating in German army 93
Material in cast-iron flywheels and pulleys 235
Materials, speeds for turning unusual 99
Mathematics, relation of to engineering 319
Matter, electric emissivity of... 266
Measurement of vessels for Panama Canal 95
Measuring machine, Shaw's electric *141
Meat supply, the problem of...*306
Mechanical power, man as source of *221
Menace of the feeble-minded.... 251
Mercury and musts 59
Metal shapes, press for forming*273
Metals, passivity of 51
Metals used for bearings 242
Meteorological observatory, Blue Hill 307
Meteorological stations in Tripolitania 67
Meter, a new steam *309
Meter, international conference on the 67
Mexican invasion disease dangers 335
Microbes, longevity of 16
Microbian droplets 394
Microbian life 149
Microscopical and colloidal *examinations of jams *375
"Mine type" chemical fire engine*149
Mineral constitution of the Shetland Isles, the 379
Minervites, the 380
Mines and fisheries, amber *337
Mines in Belgium, prehistoric...*197
Mining and iron works, Austrian*353
Mirrors, silvering 143
Mississippi, curbing the *204
Mnemonic rule for the constant π 48, 243
Model, a working erosion *291
Modern forms of Roentgen-ray tubes *404
Molecular structure, experimental evidence of *299
Monaco motorboat races, recent*305
Monument and temple, the story told by *321
Moon, smallest object visible on 279
Moon, stereoscopic pictures of the *140
Moon's influence on earth's magnetism 368
Motion, some phenomena of fluid*146
Motorboat races at Monaco, recent *305
Motorcar industry and machine tools *257
Motors, agricultural, in West Indies 139
Motors, gyroscopic force in revolving-cylinder *50
Mountain sickness 192
Movies and the eyes 288
Moving pictures in the machine tool business *103
Mud-built farms 5
Muscular exercise in relation to altitude 139
Musts and mercury 59

N

Naval expenditure of the powers *11
Naval powers, comparative strengths of 233
Navy, American, decline of *262
Navy, the year's addition to our*340
Neon tubes and aurora borealis 219
Neptune, propelling machinery for *348
New books, reviews of ..64, 176, 224
New Haven, electrical injury to its street trees *36
Nitrogen fixation, Serpek process 143
Non-coking coals, by-products from 223
Number and light of the stars, the 398

O

Observatory meteorological, Blue Hill 307
Ocean transport, economy in... 7
Ocean waves in deep water.....*285
Oil-burning steam yacht "Cyprus" *193
Oil fuel, future of 226
Oil fuel in marine boilers...... 69
Olympia aero show at a glance I, *264; II, *276
Omnibus companies, new device for French *123
Opiate derived from lettuce juice 123
Optical marvels in the Antarctic.*129
Orchid, with explosive powers.. 368
Ores, sintered iron compared... 295
Organic synthesis and Emil Fischer 281
Organic synthesis and sunlight.. 96
Origin of new types, sudden I, 26; II, 46; III, 54
Origin of petroleum 128
Origin of solar electricity...... 10
Origin, racial, of successful Americans 351

P

Palæobotany, its past and present 62
Panama and west coast trade.. 231
Panama Canal, measurement of vessels for 95
Parasite of man, malarial 331
Paris aeronautical salon *17
Particles, method of counting Alpha and Beta *201
Passivity of metals 51
Patent Office, state of the 127
Pearl production artificially induced *205
Pearling industry, economic biology of *1
Pégoud's flights, technical impressions of *56
Petroleum and its derivatives .. 194
Petroleum, origin of 128
Phenomena of fluid motion *146
Photographic process, new copper 347
Photography, snapshot *268
Photometry, stellar *58
Photography, stellar for amateurs 96
Photography, stereoscopic effects in 75
Physical science, recent discoveries in..I, *258; II, *274; III, *298; IV, *310
Pictures, stereoscopic, of the moon *140
Piezochemistry, recent advances in 254
Pigment (blood) and chlorophyl*269
Pipes, wooden water 35
Plant, sun-power in Egypt.... *33
Plants, life of building power.. 130
Plasmodium tenue, a man parasite 331
Pneumatic grain elevators *388
Poisoning, lead, in American industrial life 79
Population and food production. 215
Porpoises at New York aquarium*301
Ports on the North Pacific.... 48
Postage stamps, forging and falsification of 23
Poultry house, how to construct 352
Powdered coal under boilers ... 272
Power from coal and solar radiation, cost of *33
Power, man as source of mechanical *221
Prehistoric mines in Belgium...*197
Press, a 1,000-ton, for forming large metal shapes *273
Pressure rises in electrical circuits and apparatus 42
Prime mover, selecting a 230
Prime numbers 39
Problem of the meat supply...*306
Problem of three bodies....... 303
Problems, Antarctic, Andes and Horst 214
Production of animal heat 55
Progress in boiler, tank, and plate shops *65
Progress in locomotive design.. *97
Progress of the safety movement 90
Propelling machinery for the collier "Neptune" *392
Properties of water at high pressures and low temperatures ....I, *280; II, *290
Protecting the engine and the aviator 387
Protection of battleships during darkness 379
Protection of iron and steel by paint films *85
Protection of nature's fauna... 45
Pumping expense and mines... *34
Pyrometer for superheater locomotives *237

Q

Quantitative colorimetric analysis. I, *178; II, *206; III, *238
Quartz-tube mercury arc lamp.. 19

R

Races, recent motorboat at Monaco *305
Racial origin of successful Americans 351
Radiation, imprisonment of, by reflection *112
Radiation problem, the 243
Radioactive disintegration of sodium 79
Radiotelegraphic German stations in Pacific 147
Radiotelegraphy and radiotelephony improvements. I, *346; II, *354; III, *378
Radium institute, work of the Vienna 229
Radium, source of 83
Railway in Iceland 175
Railway ties, concrete elastic .. *21
Railways, Winter troubles on 53
Rainy Lake fill *216
Rate at which time of trains can be made up *7
Reality of the ether, the *405
Reblading a Parsons steam turbine *52
Reciprocating engine, turbine and gas motor compared.... 230
Recorder, carbon dioxide *281
Redwood and Douglas fir, strength of *20
Refrigeration, power required for *34
Refrigerators, use grossly uneconomical *6
Relation of aquatic animals to surrounding waters 342
Report (annual) on Patent Office 127
Reptiles, South American fossil.*312
Research, chemist and textile, industry *293
Reviews of new books..64, 176, 224
Revolving-cylinder motors, and gyroscopic force *50
Rhinoceros, the white *28
Richards, T. W., work at Harvard 53
Right and lefthand engines.... *74
"Rio de Janeiro," dreadnought..*120
Rivers, a comparison of *241
Roads, concrete, in construction of *200
Roller and ball-bearings....... 39
Rose-growing industry of Lyons 355
Rotating airship shed *77
Rust-proofing iron and steel articles 222

149
R

Safety methods of storing and handling explosive liquids ...*108
Safety movement to prevent accidents 90
Safety of life at sea 126, 211
Salt, and fertility of soil 19
Saucepans, lead shot to repair.. 251
Scale, a direct reading for Wheatstone bridge *320
Schoolrooms, fresh air in *118
Science, physical, recent discoveries in ..I, *258; II, *274; III, *298; IV, *310
Science, the new and the old in 111
Scott's Antarctic expedition, scientific results 211
Scythian chief's tomb unearthed *76
Sea, safety of life at 126
Self-contained portable electric mine lamp *373
Selecting a prime mover 230
Series discharge tubes *381
Serpek process for nitrogen fixation 143
Shackelton's Antarctic expedition, 1914 .... *81
Shafting, strength of, to transmit given horse-power at different speeds *331
Shafts, sinking and lining of... *34
Shapes, press for forming large metal 279
Shaw's electric measuring machine *141
Shed, rotating dirigible *77
Shop transportation, possible economies in *38
Shops, progress in boiler, tank, and plate *65
Sikorsky's stupendous biplane.. 91
Silvering mirrors 143
Sinking and lining of shafts ... *34
Sinks and bathtubs, to clean ... 320
Sintered iron ores compared.... 295
Skeletons, fossil, asphalt group.*212
Skill-wages basis, labor classified on *86
Sleeping sickness, a cure for ... 63
Smallest object visible on the moon 279
Smelting zinc, in electric furnace *66
Snakes, bites of venomous, and treatment *133
Snapshot photography *268
Sodium cyanide, industrial synthesis of *134
Sodium, radioactive disintegration of 79
Solar electricity, on the origin of 10
Solar system and the earth's crust, the 410
"Soo" Canal, world's busiest locks *40
Source of radium, the 83
South America as an export field 355
South Georgia whaling grounds, Antarctic *60
Space, interstellar, is it empty? 29
Speeds for turning unusual materials 99
Stability of ships' lifeboats 339
Stabilizers, automatic 203
Stamps, forging and falsification of postage 23
Stars in daylight 336
Stationary engines, breakdowns of *364
Stations, German radiotelegraphic in Pacific 147
Statistics on German universities, some 331
Steam meter, a new *309
Steam plant, temperature variations in *284
Steam yacht "Cyprus," oil-burning *193
Steel, hardening and tempering. *8
Stellar photography for amateurs 96
Stellar photometry *58
Stereoscopic effects in photography 75
Stereoscopic pictures of the moon *140
Storing and handling explosive liquids, safety methods of...*108
Street cars, overcrowded 5
Strength of long-seasoned Douglas fir and redwood *20
Strength of shafting and horsepower, table of *331
Structure, experimental evidence of molecular *299
Sudden origin of new types, I, 26; II, 46; III, 54
Suez Canal, deepening 142
Sugar as a surgical antiseptic.. 407
Sun and electric waves, eclipse. 247
Sun-power plant *33
Suit, the Marconi wireless 234
Sunlight and organic synthesis. 96
Super-dreadnoughts, destroyer and collier *340
Snythesis, organic, and sunlight 96

T

Table of feet reduced to decimals of a mile 259
Table of strength of shafting for horse-power *331
Tariff (new) and efficiency..... 122
Technical impressions of Pégoud's flights *56
Telephony, progress in wireless.*308
Temperature rise and melting icebergs *67
Temperature variations in the steam plant *284
Temperatures, life at low 137
Temperatures, low, of water clouds 73
Testing of automobile materials. *72
Textile industry and research chemist *293
The Amazon's discharge *241
The light that fails *2
Theories of ore-genesis 386
Thinking, human worth of rigorous 30
Time (legal) in various countries *357
Time of trains, rate for *7
Tomb unearthed of Scythian chief *76
Tool business (machine) and moving pictures *103
Tools, electrically operated.....*28
Trade (west coast) at Panama. 23
Trained men, industrial need of technically 138, 150
Trains, rate at which time of can be made up *7
Transformer, construction of a fifty-watt *4
Transport, economy in ocean... 7
Transport facilities of cities... 39
Transportation, economies in shop *38
Trees as windbreaks for land.. 333
Trees, coloring wood of growing 105
Trees, street, electrical injury to *36
Tropical vegetable foods 406
Tripping devices, electromagnetic *94
Tubing, flexible metallic 59
Tungsten, ductile 217
Tungsten, electrical uses of.... 352
Turbine, reblading a Parsons steam *52
Turbine (steam) and reduction gear *348
Two-rate meter, a 400
Types, sudden origin of new I, 26; II, 46; III, 54

U

Universities in Germany, demand for 311
Unusual materials, speeds for turning 99
Use of the Pitot tube, the....*394
Uses of Tantalum 414

V

Varron of the ox, the 379
Vegetation in checking erosion..*291
Venus of Milo, arms of 135
Vermin, the cost of 275
Vessels, measurement of, for Panama Canal 95
Vessels, safety of life on, at sea 126
Vienna radium institute work.. 229
Vitamines, the 402
Vulcanization of rubber by the ultra-violet rays 387
Vulcanized fiber, manufacture of 304

W

Wasps, social evolution in.....*117
Waste (colossal) due to bad municipal engineering 270
Wastefulness of coke ovens 242
Water at high pressures and low temperatures....I, *280; II, *290
Water clouds at low temperatures 73
Water power, development in Nova Scotia 9
Water, total cube of the earth. 67
Wave-action on harbor breakwaters and piers *324
Waves, electric, eclipse of the sun 247
Waves, ocean, in deep water....*285
Weather and intensity of Hertzian waves 208
West coast trade at Panama... 231
Whales in the Mediterranean... 333
Whaling grounds in Antarctic.. *60
Wheatstone bridge, direct reading scale *320
Whistle indicator and fire-damp 215
Windbreaks for land, trees as.. 333
Wine production of Greece, the. 409
Winter troubles on electric railways 53
Wireless suit, the Marconi 234
Wireless telephony, progress in.*308
Wooden water pipes 35
World's production of petroleum in 1913, the 397

X

X-rays, burns from 144
X-rays, present physical knowledge of 198

Y

Yacht (steam), the oil-burning "Cyprus" *193

Z

Zinc smelting in the electric furnace *66
